

# Gametime Stars Fastpitch – Player & Parent Guide

## Parents: Getting Started

- After you have been added to a team's roster you may create an account. It is important to use the same email address that your manager used when adding you.
- After your account has been created (and you have verified your email), navigate to your Team's page.
- You will see a message indicating you need to read and sign the Parent Agreement. This agreement contains terms that you agree to while playing as a member of a Gametime Stars fastpitch team.
- Click the "Player Profiles" link in the mini-navigation bar.
- Click your player's profile.
  - If you do not see your player, please contact your manager. It is likely they have not enabled your player profile.
- You'll see an "Edit" button where you can then begin updating the profile information.
  - If you do not see an "Edit" button, please contact your manager to ensure the correct email address was used when setting up your account.

- Headshots can be updated by the player, or anyone on the coaching staff. It is highly encouraged that all players on the team have the same uniform and background for their pictures.
- A player profile is a summary of your player's softball journey so please keep it updated when things change.
